About the Center for Responsible Lending
The Center for Responsible Lending (CRL) works to ensure a fair, inclusive financial marketplace that creates opportunities for all credit-worthy borrowers, regardless of their income, because too many hard-working people are deceived by dishonest and harmful practices.

CRL’s work focuses on those who may be marginalized or underserved by the existing financial marketplace, or in many cases, people who are targeted for unfair and abusive financial products that leave them worse off. This includes people of color, women, rural residents and low-wealth families and communities.

Our work grows directly from our affiliation with Self-Help, our founder and one of the nation’s largest nonprofit community development lenders. For nearly 40 years, Self-Help has worked to create ownership and economic opportunity in underserved communities through responsible loans and financial services.
